

## DuraMax™ Resin Folding Chair

Seat Height	Overall Height	Width	Weight	Seat Depth	Footprint
18" (45cm)	30 1/2" (79cm)	17 1/2" (44cm)	11.5 lbs. (5kg)	14 1/4" (36cm)	16 1/4" L x 17 1/2" W (41cm x 44cm)

**Legs and Frame:** Chair legs and frame are made from polypropylene resin (co-PP + CaCo<sub>3</sub> 20% UV stabilizer and Antistatic agent). Cross supports consist of identical material.

**Seat:** Seat base is manufactured from the same polypropylene resin used throughout the chair legs and frame. Seat is removable and easily snaps in or out for convenient replacement.

**Upholstery:** PVC leather is applied over 1/2" (13mm) foam padding, then securely attached to the polypropylene base with upholstery staples.

**Seat base support:** Seat base is reinforced with an 8mm x 420mm solid aluminum bar that is attached to the frame and which also functions as the seat's pivot point.

**Folding:** Chair folds flat to 2 1/4" (59mm).

**Hardware:** Frame and legs are attached to corresponding frame members using 13mm x 12.5mm stainless steel bolts.

**Stacking:** Chairs stack 30 units high for efficient transportation, or up to 50 units high for storage.

**Colors:** Chairs are manufactured in White, Black, Grey and Taupe.

**Performance Specifications:** Chairs were successfully tested to 1,000+ lbs. in a static load test.

**Warranty:** DuraMax™ Resin Folding chairs are warranted to be free from manufacturer defects in materials and workmanship under normal use, service, and handling for a period of three (3) years from the date of purchase. Seat vinyl is warranted to be free from manufacturer defects for a period of one (1) year from the date of purchase.
