Frame: The front, back, and legs are made of .962" [24.4mm], 6061-T6 extruded aluminum tube. The seat support is made of .5" [12.7mm], 6061-T6 solid square aluminum bar. A high grade Argon gas mixture is used for clean, smooth, and strong welds.

Glides: The glides are chrome-plated with a rubber compression spacer to absorb shock.

Ganging: Not yet available.

Frame Finish: Durable two-coat wet paint process ensures uniform application and deep, rich colors.

Back: The upholstery and foam are stapled to a wood insert, which is attached to the chair back frame. Foam is 1.00" [25mm] thick [front of backrest], .20" [5mm] thick [back of backrest] polyurethane.

Flex Back: Back-adpat™ flex-system utilizes one-piece aluminum spring for a firm consistent flex with no pinch points or mechanical parts that wear.

Seat: The upholstery and foam are stapled to .5" [12.7 mm] plywood seat base. Foam is 3.93" [100mm] thick high-resiliency TDI polyurethane.

Pitch: Flex-back chairs feature a dining pitch in the non-flexed position.

Standards: Prestige Series chairs meet or exceed all applicable tests from ANSI / BIFMA X 5.1 - 2002. All upholstery and foam meet or exceed California Bulletin 117.

Weight Capacity: 1,000 [454kg] lbs.

Stacking: Optimal storage density is 8 chairs per stack.

Warranty: Mity-Lite, Inc. warrants its Prestige Series chair frames to be free from defects in materials and workmanship under normal use, service, and handling for a period of twelve [12] years. Mity-Lite, Inc. warrants chair fabric, seat base, foam, and paint for a period of one [1] year from the date of purchase. Customer's Own Material must meet Mity-Lite standards. Upholstery or frame are NOT warranted for outdoor use.
