

Durable Lightweight Tables & Chairs

## Magnattach® Portable Dance Floor

### How much time & money can a portable dance floor save you?

Amazingly, a 20' x 20' Magnattach® Portable Dance Floor can be assembled or disassembled in less than 7 minutes—which means time and labor costs can be reduced by up to 90%\*. Beyond the fast setup, each dance floor is held securely together through a patented triple-lock system and outlasts the competition due to no moving parts. In addition, Willsonart® commercial laminates provide a wide variety of rich, durable finishes that complement any design need. For more than 16 years Mity-Lite's Magnattach® Portable Dance Floor has delivered the best ROI in the industry through speed, durability, and safety.

### Features & Benefits

- Industry's lowest cost of ownership and operation
- Fast assembly / disassembly reduces labor costs by up to 90%
- Self-locking panels mean no cams, screws, or tabs
- Patented triple-lock system prevents "panel shift"
- NO moving parts equals unbreakable construction
- Willsonart® commercial laminates in a variety of rich, durable finishes
- Extremely low maintenance with zero refinishing
- 12-year limited warranty
- Quick-ship delivery
- Made in USA

*\*Compared to a 3' x 3' allen screw attachment dance floor*

Panel	Overall Thickness 1.1" (2.8cm)	Width 4' (1.2m)	Length 4' (1.2m)	Weight 58 lbs (26kg)
-------	-----------------------------------	--------------------	---------------------	-------------------------

Durable aircraft grade aluminum for many years of reliable use

Interlocking steel wedge bars eliminate lateral slippage

Ultra high-strength magnets generate over 400 pounds of locking power

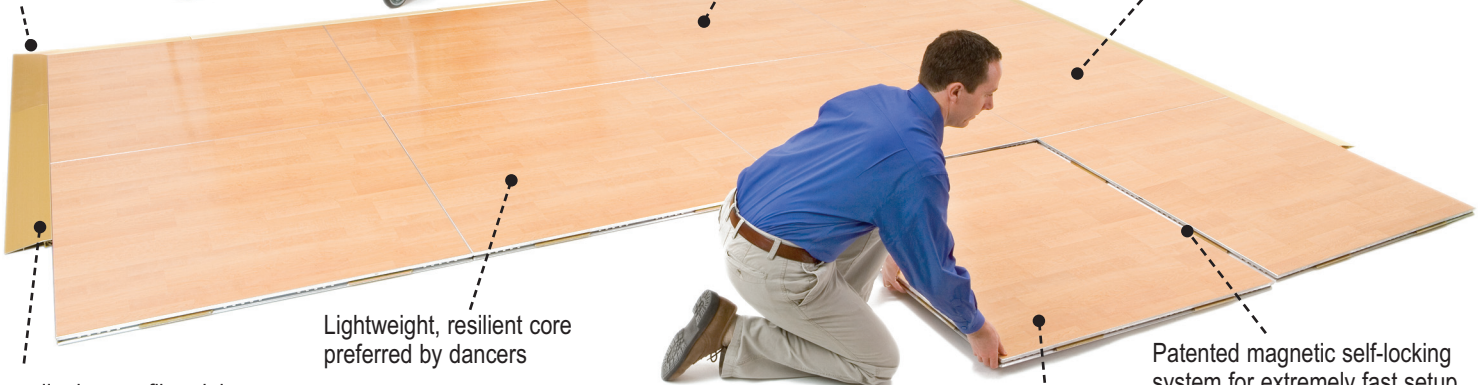

Heavy-duty cart provides convenient storage & easy transit

Single unit corner for simplified assembly and guest safety

Wilsonart® commercial laminates never require refinishing

No moving parts, No attachment holes, No problems

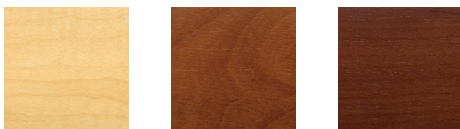

Non-slip, low-profile edging vice locks panels together

Lightweight, resilient core preferred by dancers

Patented magnetic self-locking system for extremely fast setup & triple secure use

No assembly tools required
